

Sprint 4 Report and Post-Mortem

Sluggo for iOS

Sluggo Team

5/17/21

Things to Stop Doing

- Team reports no issues with procedures in the last sprint.

Things to Keep Doing

- If people are busy with other classes, communicate with the team and coordinate to ensure things get done.

Things to Start Doing

- Start refactor work so that components can be automatically and exhaustively tested

Work Completed

- **User Story 1:** As a team admin I'd want to be able to invite users to the team. (Extend the backend/holistic work) (15 points)
 - Create an api endpoint for creating a member record whose role is initially invited. This will need to accept an email to search for a user record. (3 points)
 - Create an api endpoint for listing all teams a user has pending invitations for. (5 points)
 - Create an api endpoint for accepting / rejecting an invitation. (3 points)
 - In the admin view, create a dialog for creating an invite via a user's email. (3 points)
 - In the team view, add a section for listing the teams that a user has pending invites for. (1 point)
- **User Story 2:** As a team admin, I want to be able to create and remove tags. (3 points)
 - Add a section in the admin view for adding tags (2 points)
 - Add a section in the admin view for removing tags (1 points)
- **User Story 3:** As a team member I want to be able to pin tickets to view them on the homepage. (2 points)
 - Add a button to the ticket detail view to pin / un-pin (2 point)
- **User Story 4:** As a team member, I want to be able to delete tickets. (2 points)
 - Add a row in the edit page that will appear on the bottom giving the option to

- delete a ticket. (1 point)
- When pressed call endpoint, refresh app/ticket list and segue back to previous page. (1 point)
- **User Story 5:** As a team member, I want to be able to log out. (4 points)
 - Add a button to the team sidebar to log out (2 points)
 - Prevent the sidebar being triggered from anywhere not the root view (2 points)

Not Completed:

Everything was completed.

Work Completed Ratio

- Total stories completed: 5/5 stories -> 100% work completed
- Estimated work hours: 65 (where 1 point -> 2.5hrs, 2pts -> 5hrs, 3pts->10hrs), 4.64 hrs per day
- Number of days: 14
- User stories / day: 0.36 stories a day
- Average across all sprints: 0.315 user stories per day, 3.23 work hrs per day
