

# Sprint 1 Report and Post-Mortem

Sluggo for iOS

Sluggo Team

4/20/2021

## Things to Stop Doing

- Stop delaying planning to Friday since we effectively lost two days for planning.
- Stop focusing on the learning aspect and make sure we are setting enough time aside for implementing.
- Ensure we start sprints on time (this one started a week late due to confusion; understandable but recording for completion)

## Things to Keep Doing

- 30 Minute meetings 3 days a week
- Keep talking in the discord
- Keep doing pair-programming mixed in with solo programming as well

## Things to Start Doing

- Start planning ahead on meetings before the sprint begins, so we can maximize use of the time
- Monday at 7 - Meetings to debrief sprint and plan next sprint. Would occur when the sprint is ending. Would roll in that day's scrum.
- Priority group MMS to let people know about events

## Work Completed

- As a user I want to login and logout securely.

## Not Completed:

- As a user I want to login and logout securely.
- As a user I want to be able to switch between different team contexts.

## Work Completed Ratio

- Total number of user stories completed during the prior sprint.
  - 1 out of the 2
- Total number of estimated ideal work hours completed during the prior sprint.

- 16
- Total number of days during the prior sprint.
  - 2 weeks
- For the previous sprint, the user stories/day and ideal work hours/day figures should be reported.
  - 0.07 user stories a day
  - 1.2 Hours
- The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.
