

Sprint 3 Report and Post-Mortem

Sluggo for iOS

Sluggo Team

5/17/21

Things to Stop Doing

- Make sure everyone understands the exact tasks they are assigned, and don't reassign without explicit understanding from everyone.

Things to Keep Doing

- Continual and regular scrum, with open discussion after the scrum meeting, with a typical length of 30 minutes overall.
- Keep talking in the discord and keep everyone updated in-between scrum meetings
- Keep doing pair-programming mixed in with solo programming as well.
- Continue using coding standards.

Things to Start Doing

- Formally document working agreement, tests summary, coding standards

Work Completed

- As a team member, I want to quickly glance at any tickets that are assigned to me.
- As a team member, I want to see who is on the team (Develop the frontend).
- As a team member, I want to be able to add tags and statuses to tickets (Develop the frontend).
- As a team member, I want to be able to filter my team's tickets by their tags and statuses (Extend the backend / holistic work).
- As a team admin, I want to be able to manage aspects of the team, particularly enabling other users to administrate the team.

Not Completed:

- Nothing here.
