Sprint 4 Plan - CSE 115A

Sprint 4 Plan
Team Name: Sluggo Team
Product Name: Sluggo for IOS
Sprint Completion Date:1st of June, 2021
Version Number: 1.0
Version Date: 18th of May, 2021

Goal: The goal for this sprint is to continue work on the main views for the app not completed in Sprint 2, as well as begin work on the admin page and further extend the functionality of ticket management.

Tasks:
- **User Story 1:** As a team admin I'd want to be able to invite users to the team. (Extend the backend/holistic work) (15 points)
    - Create an api endpoint for creating a member record whose role is initially invited. This will need to accept an email to search for a user record. (3 points)
    - Create an api endpoint for accepting / rejecting an invitation. (3 points)
    - Create an api endpoint for listing all teams a user has pending invitations for. (5 points)
    - In the admin view, create a dialog for creating an invite via a user's email. (3 points)
    - In the team view, add a section for listing the teams that a user has pending invites for. (1 point)
- **User Story 2:** As a team admin, I want to be able to create and remove tags. (3 points)
    - Add a section in the admin view for adding tags (2 points)
    - Add a section in the admin view for removing tags (1 points)
- **User Story 3:** As a team member I want to be able to pin tickets to view them on the homepage. (2 points)
    - Add a button to the ticket detail view to pin / un-pin (2 point)
- **User Story 4:** As a team member, I want to be able to delete tickets. (2 points)
    - Add a row in the edit page that will appear on the bottom giving the option to delete a ticket. (1 point)
    - When pressed call endpoint, refresh app/ticket list and segue back to previous page. (1 point)
- **User Story 5:** As a team member, I want to be able to log out. (4 points)
    - Add a button to the team sidebar to log out (2 points)
    - Prevent the sidebar being triggered from anywhere not the root view (2 points)
Team Roles:
- Isaac Trimble-Pederson: Product Owner, Developer
- Samuel Schmidt: Developer
- Andrew Gavgavian: Developer
- Stephan Martin: Developer
- Troy Ebert: Scrum Master, Developer

Initial Task Assignment:
- Isaac Trimble-Pederson: User Story 5
- Samuel Schmidt: User Story 1
- Andrew Gavgavian: User Story: 3/4
- Stephan Martin: User Story: 2/3/4
- Troy Ebert: User Story 1
